

Smarter business communication. Anywhere. Anytime.

Empower your teams with NFON Cloud Telephony — your intelligent, flexible and secure cloud-based phone system for modern work. Whether at home, in the office, or on the go, connect people and streamline workflows with voice, video and smart AI features like call transcripts, summaries and voicemail-to-text.

Got internet? You're ready.

NFON Cloud Telephony is fast to deploy and works with your existing infrastructure. Start in minutes — no hardware, no hassle.

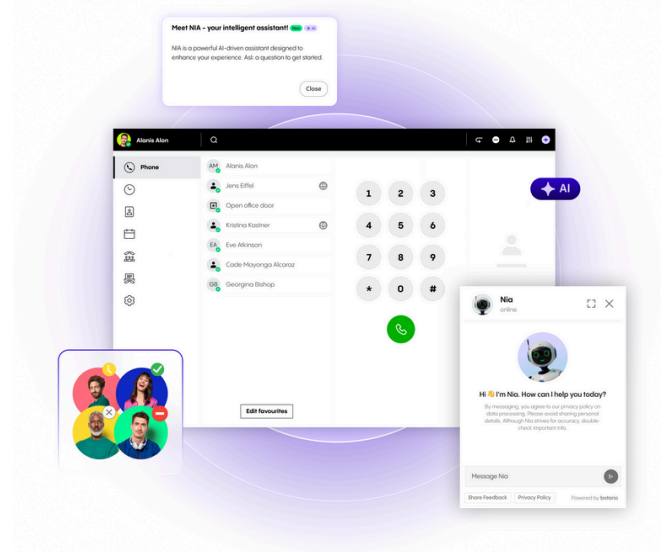

Powerful features, smarter workflows.

- One login and one number across all devices
- Voice and video conferencing incl. screen sharing
- Fully integrated desktop, mobile and browser apps
- AI-powered call summaries, action items & voicemail transcription
- 300+ CRM integrations out of the box

**Smarter communication
starts here. Let's talk.**

Want more?

NFON Cloud Telephony is built to grow with your business. Expand with add-ons like call recording, queue monitoring, contact center capabilities and Microsoft Teams integration.

Boost your business

- Smart automation that reduces workload and boosts productivity
- Central admin management for remote and multi-site setups
- GDPR-compliant and hosted in geo-redundant German datacenters
- Seamless integrations with tools you already use
- No long-term contracts — scale up or down flexibly

Treat your teams

- Clean, intuitive interface for smooth daily use
- Consistent experience across all devices
- Ready for remote and hybrid teams
- Real-time support from Nia — directly inside your App Suite & Admin Portal
